

Workshop on sub-Arctic molecular ecology and environmental microbiology

The University of Akureyri
March 27 to 30, 2011.

27 March - Field trip (BYOV)

Pre-meeting field trip (weather permitting): Mývatn, Námaskarð, Jökulsá á Fjöllum

28 March: Talks @ Miðborg (M101)

Morning session (10:00 to 12:00) - Molecular techniques in ecology, physiology and structural biology.

Early afternoon session (13:00 to 15:00) - Microbial interactions with plants and lichens.

Late afternoon session (15:30 to 17:30) - Extreme microbial environments in the sub-Arctic (hot springs, glaciers, caves).

29 March: Talks @ Miðborg (N102)

Morning session (10:00 to 12:00) - Freshwater geomicrobiology and the glacial river Jökulsá á Fjöllum.

Early afternoon session (13:00 to 15:00) - Funding and amenities for field trips in Northern Iceland.

Late afternoon session (15:30 to 17:00) - Field trip course nitty-gritty (roundtable).

30 March: Mystery field trip (BYOV)

Post-meeting mystery field trip (destination depends on the weather forecast).
